EASA - 11th Annual Graduation Ceremony

Welcome Remarks from the Director, EASA

It is with immense pride and profound joy that I welcome you to the 11th Graduation Ceremony of the East African School of Aviation (EASA). Today, we celebrate the remarkable achievements of the Class of 2025, a cohort whose dedication, resilience and commitment have brought us to this momentous occasion.

This year's theme "Flight Path to the Future: Nurturing Aviation's Next Generation" captures the spirit of transformation that defines both EASA and the global aviation industry today. As technology reshapes our skies and new possibilities emerge across every area of aviation, you, our graduands, stand at the

forefront of this evolution. You are the next generation of professionals who will innovate, inspire and set new standards for safety, efficiency and excellence.

Since its establishment in 1954, EASA has remained unwavering in its mandate to develop highly skilled aviation personnel who serve with professionalism and integrity. As an ICAO Platinum Training Centre of Excellence, our commitment is not only to impart technical knowledge, but also to nurture leaders who will shape aviation in Kenya, across Africa and around the world. Your success today is a testament to the tireless efforts of our trainers, instructors, administrators and support staff, whose dedication to quality education continues to elevate the EASA brand.

To the families, parents, guardians and sponsors present today, thank you for the sacrifices you have made and the encouragement you have given. Your steadfast support has carried these graduands through their studies and has played a vital role in their success.

To our partners, industry stakeholders and the wider aviation community, we value your continued collaboration. Your contributions ensure that our programmes remain relevant, industry-aligned and responsive to emerging trends in aviation.

And to you, our graduands: as you prepare to embark on your professional journey, remember that your time at EASA has equipped you not only with knowledge and skill, but also with the discipline, curiosity and confidence needed to excel in a dynamic aviation environment. Carry forward the values you have learned, uphold the highest standards of safety and service, and stay committed to lifelong learning.

EASA will always remain your home, a place that believes in your potential and stands ready to support your

continued professional growth. Congratulations to the Class of 2025. Your future is bright, and the aviation world awaits you.

I wish you every success as you take flight into the next chapter of your journey.

Dr. Serah Waitiki,
Director,
East Africa School of Aviation.

EASA - 11th Annual Graduation Ceremony

About EASA

The East African School of Aviation (EASA) is the training directorate of the Kenya Civil Aviation Authority (KCAA) and a premier institution dedicated to developing skilled, competent and globally competitive aviation professionals. Established in 1954, EASA has grown from a small telecommunication training unit into one of Africa's most respected aviation training centers, playing a central role in shaping the continent's aviation capacity and workforce.

Over the years, EASA has evolved in scope, infrastructure and mandate – continually aligning itself with emerging global aviation trends. Today, the School offers a wide range of aviation, technical and management programs, including Air Navigation Services, Aeronautical Engineering, Aviation Security, Airport Operations, Air Cargo Management, Travel & Tourism, Flight Dispatch and a variety of ICAO and IATA courses.

EASA stands distinguished as an ICAO Platinum Training Centre of Excellence, a recognition earned through strict adherence to global standards, innovative training methods and a strong commitment

to quality. The institution is also:

- An Approved Training Organization (ATO) certified by KCAA
- An ICAO TRAINAIR PLUS Full Member and Regional Training Centre of Excellence (RTCE)
- An IATA Authorized Training Centre (ATC) and a Top Regional Performer
- ISO 9001:2015 certified, reflecting strong quality management practices
- A TVET-registered and TVETA-accredited institution

These accreditations underscore EASA's unwavering commitment to providing competency-based training that meets the needs of the global aviation industry.

EASA's strength lies not only in its credentials, but also in its state-of-the-art training facilities, which include modern classrooms, specialized laboratories, aeronautical engineering workshops, full-scope air traffic control simulators, and a dynamic learning environment designed to prepare learners for

real-world aviation demands. As the aviation sector embraces digitalization, automation and new technologies, EASA continues to invest in systems and tools that enhance learning and operational readiness.

The School also maintains strong partnerships with ICAO, IATA, regional authorities, industry players and international stakeholders. These collaborations enrich the learning experience, support capacity-building initiatives, and reinforce Kenya's position as a leading aviation training hub in Africa.

As EASA celebrates its legacy and looks to the future, it remains dedicated to its vision "To be the Global Aviation Training Centre of Choice," and to its mission of delivering quality training that supports safe, efficient and sustainable aviation operations.

With decades of leadership, innovation and excellence behind it, EASA stands ready to nurture the next generation of aviation professionals, the individuals who will define the future of flight in Kenya, across Africa and around the world.

Launch of the IDS Integrated AIM Systems Lab

The East African School of Aviation achieved a major milestone with the launch of the IDS Integrated Aeronautical Information Management (AIM) Systems Laboratory, presided over by Dr. Serah Waitiki, Director of EASA.

The new facility introduces advanced digital tools that support training in modern AIM processes, including aeronautical data management, digital NOTAMs, charting and automated workflow systems. Developed in partnership with IDS, the lab enhances the School's capacity to deliver training aligned with ICAO standards and the demands of a rapidly evolving air navigation environment.

During the launch, Dr. Waitiki noted that the AIM Lab strengthens EASA's role as a regional leader in aviation training and equips learners with essential skills for the future of air traffic management. The facility will serve both local and regional trainees, supporting Kenya's commitment to safe, efficient and technology-driven airspace operations.

EASA @ 70 Celebrations

EASA marked its 70th anniversary during last year's graduation ceremony, a historic milestone celebrated through a week-long series of activities. The celebrations included the inaugural SkyConnect Summit, which brought together key industry stakeholders for discussions on innovation, partnerships and the future of aviation training. The anniversary events highlighted EASA's legacy of excellence and its continued commitment to shaping the next generation of aviation professionals.

The Director of EASA, Dr. Serah Waitiki, together with the representative of the Director General, Ms. Mary Keter, Director Aviation Safety, flanked by EASA students during the launch of the EASA@70 celebrations.

Industry Collaboration with Jambojet

EASA engineering students benefited from an industry collaboration programme with Jambojet, where they engaged in practical exposure to aircraft maintenance and operational procedures. This partnership strengthens EASA's link with leading airlines and equips students with real-world experience essential for their professional growth in the aviation sector.

EASA Participates in the NGAP Conference in South Africa

EASA proudly participated in the Next Generation of Aviation Professionals (NGAP) Conference held in South Africa, joining global aviation stakeholders in discussions on capacity building, youth empowerment and the future of the aviation workforce. The engagement reinforced EASA's commitment to nurturing skilled professionals and contributing to regional and international aviation development.

The Director of EASA, Dr. Serah Waitiki, together with the EASA community, participates in environmental cleanup activities

EASA takes part in community environmental clean-up activities aimed at promoting sustainability and environmental stewardship. Staff and students joined hands to restore and beautify shared spaces, reflecting the School's commitment to responsible citizenship and a cleaner, greener future.

Co-Curricular Activities at EASA

EASA enriches the learning experience by incorporating co-curricular activities such as volleyball, basketball, swimming and various indoor games. These activities promote teamwork, discipline and student well-being, complementing the School's holistic approach to aviation training.

EASA Women's Volleyball Team, flanked by the Office of the Dean of Students.

EASA Men's Basketball Team, flanked by Sports Officer Mr. Hudson Okunga

EASA Staff Team Building Activities

EASA staff engaged in team-building activities at the EASA Sports Grounds, fostering collaboration, motivation and a stronger sense of community. The event provided an opportunity for staff to reconnect, recharge and reinforce the teamwork that drives the School's success.

Some of our Training Equipment at EASA

EASA continues to invest in modern training equipment to enhance practical learning across its programmes. From specialised laboratory tools to advanced aviation training systems, these resources ensure students gain hands-on experience aligned with current industry standards.

DIPLOMA IN AERONAUTICAL ENGINEERING (AIR FRAMES AND ENGINES OPTION)

Course Objectives:

The training prepares graduates for a career in aircraft maintenance.

Course Content:

- Engineering mathematics
- Airfield and Safety procedures
- Industrial Organization and Maintenance
- Trade and Entrepreneurship Project
- Flight Mechanics
- Airframe Technology
- Aircraft Propulsion

Among the various areas of employment are:

- Aircraft maintenance organizations e.g. Air Works Aviation, Hawk Aviation
- Civil Aviation Aircraft Inspectors e.g. KCAA
- Military
- Flight Crew

**Successful trainees acquire the title of an Airframes and Engines Technician.
Airframes and Engines technicians typically do the following:**

- Performing preventive maintenance checks and services on aircraft components and systems, such as brakes, hydraulic lines, fuel lines, etc.

DIPLOMA IN FLIGHT OPERATION/DISPATCH

Course Objectives:

The training equips students with Skills and expertise to meet the industry's requirements in Aviation Safety, Aviation Security in exercising excellent flight planning duties.

At the end of this Course, participants will be able to demonstrate excellent safety precautions and flight guidance skills.

Course Content

- Meteorology
- Flight Monitoring/ Aircraft Performance
- Aircraft General Knowledge
- Flight Planning
- Operations Control Procedures
- Human Factors
- Air Traffic Management
- Communication/ Civil Airlaw
- Mass & Balance/ Navigation

Employment opportunities

- Commercial Airlines as flight dispatch officers
- Commercial Airlines as flight dispatch planners
- Ground Handling Agencies

Examining body is East African School Of Aviation

On successful completion, the graduate attains EASA Diploma in Flight Operation/Dispatch

Successful trainees acquire the title of a Flight Operation /Dispatch Officer

Minimum Entry Requirement: KCSE C-
Intakes: January & September
Duration is 1 year

Wimbo wa Taifa

Ee Mungu nguvu yetu,
Ilete baraka kwetu,
Haki iwe ngao na mlinzi,
Natukae kwa undugu,
Amani na uhuru,
Raha tupate na ustawi.

Amkeni ndugu zetu
Tufanye sote bidi
Nasi tujitoe kwa nguvu
Nchi yetu ya Kenya
Tunaiyoipenda
Tuwe tayari kuilinda

Natujengee tyaifa letu
Ee, ndio wajibu wetu
Kenya istahili heshima
Tuungane mikono
Pamoja kazini
Kila siku tuwe na shukrani

National Anthem

O God of all creation,
Bless this our land and nation,
Justice be our shield and defender,
May we dwell in unity,
Peace and liberty,
Plenty be found within our
borders.

Let one and all arise
With hearts both strong and true
Service be our earnest endeavor
And our homeland of Kenya
Heritage of splendor
Firm may we stand to defend

Let all with one accord
In common bond united
Build this our nation together
And the glory of Kenya
The fruit of our labour
Fill every heart with thanksgiving

Wimbo wa EAC

Ee Mungu twaomba ulinde
Jumuiya Afrika Mashariki
Tuwezeshe kuishi kwa Amani
Tutimize na malengo yetu

Jumuiya yetu sote tuilinde
Tuwajibike tuimarike
Umoja wetu ni nguzo yetu
Idumu Jumuiya yetu

Uzalendo pia mshikamano
Viwe msingi wa umoja wetu
Natulinde Uhuru na Amani
Mila zetu na desturi zetu

Viwandani na hata mashambani
Tufanye kazi sote kwa makini
Tujitoe kwa hali na mali
Tuijenge Jumuiya bora
